WESTON BOARD OF EDUCATION
SPECIAL MEETING

Monday, May 6, 2013
Executive Session 6:00 p.m.
Regular Session 7:00 p.m.

Weston Middle School Library Resource Center

AGENDA

I. CALL TO ORDER, VERIFICATION OF QUORUM
   Philip Schaefer, Chairperson

II. EXECUTIVE SESSION
   1. Discussion of matters concerning security strategy and the deployment of security personnel and devices affecting the security of the Weston Public Schools.

III. RESUME PUBLIC SESSION, PLEDGE OF ALLEGIANCE

IV. PUBLIC COMMENT

V. NEW BUSINESS
   1. Discussion and Anticipated Action on Budget Mitigation
   2. Teacher Supervision and Evaluation Plan for 2013-14, pages 1-98

VI. ADJOURNMENT
Weston Public Schools
Teacher Evaluation Plan

Colleen A. Palmer, Ph.D.
Superintendent of Schools

Kenneth G. Craw, Ed.D.
Assistant Superintendent of Curriculum and Instruction

Michele Clark, Teacher, WMS
What is the Mission of the Weston Public Schools?

The mission of the Weston Public Schools, as a caring and supportive community partnership, is to empower each student to achieve success and contribute to our global society by developing and cultivating character, knowledge and creativity through a dynamic learning experience that challenges each student to continually pursue personal excellence.

History of the Development of Weston’s Plan

The Weston Public Schools Teacher Supervision and Evaluation System was developed over a three-year period beginning in 2009. A committee with broad-based representation across grade levels and disciplines was formed to research best practices, conduct a district-wide survey regarding the former model, and use the information gleaned to craft the new plan. The plan was piloted during the 2010-11 school year, and subsequently refined based on feedback from pilot participants. Following, the plan was rolled out with the assistance of teachers on the committee for full-scale implementation for the 2011-12 school year.

Administrators received ongoing training throughout this process on pedagogy and teacher evaluation. A consultant was hired from the Research For Better Teaching to train administrators in the knowledge base detailed in “The Skillful Teacher: Building Your Teaching Skills,” by Jon Saphier. Additionally, administrators participated in a series of sessions on best practices in evaluation, including developing strategies for literal note-taking, effective conferencing, and writing observations. All evaluators in our district were taught a common method for providing teachers with written feedback (C,E,I,J/Q approach) and have calibrated periodically to ensure consistency. The investment in administrator training has been an essential step in ensuring the successful implementation of the plan, as reported by teachers.

With the adoption of new guidelines for teacher evaluation by the State of Connecticut in June 2012, we reconvened the teacher evaluation committee and combined it with the Professional Growth Committee. The focus of the Professional Growth Committee is as follows:

1. To provide input into the monitoring and adjusting of the district’s supervision and evaluation plan in response to the new guidelines adopted by the state.

2. To provide input into the development and evaluation of the district’s professional development plan.

3. To identify strategies to further align the supervision and evaluation plan with professional development opportunities.

The Professional Growth committee consists of broad-based representation from the district’s four schools, including classroom teachers, related services personnel, curriculum instructional leaders, and administrators. This committee has worked over the course of the 2012-13 school year to incorporate the four components of the state guidelines into the existing framework that was established in 2010.
What is the Goal of the Weston Public Schools Teacher Supervision and Evaluation System?

The goal of the Weston Public Schools (WPS) Teacher Supervision and Evaluation system is to accelerate teacher growth to advance student learning in support of student achievement of the Connecticut State Frameworks and high priority 21st Century learning outcomes. The WPS Teacher Supervision and Evaluation System will:

- Provide teachers the tools to continuously improve their instruction, enhance practice, and advance student learning;
- Ensure that all teachers demonstrate the competencies essential to fostering student academic growth and development;
- Encourage the highest level of professional performance through a focus on excellence, professional development, and the pursuit of continuous improvement of practice;
- Provide teachers with a range of options for self-initiated professional growth;
- Validate and recognize the contributions and accomplishments of the professional staff;
- Ensure accountability of teachers and administrators for achieving the goals of the Weston Public Schools;
- Provide a clear assessment of teacher performance, progress and achievement;
- Provide ongoing feedback to continuously improve practice;
- Provide regular, comprehensive, meaningful, fair evaluations;
- Align with all state and federal teacher licensing requirements; and
- Provide appropriate documentation to guide employment decisions.
The WPS Supervision and Evaluation System provides opportunities for professional growth through differentiated approaches that are influenced by the teacher’s developmental and achievement level. This system recognizes the personal nature of growth and is designed to provide options for professional development. It is essential that the teacher maintains a personal commitment to his or her own continuous professional growth and accepts personal responsibility for professional improvement.

What are the characteristics of the WPS Teacher Supervision and Evaluation system that promote quality instruction?

- Incorporates information and best thinking from:
  a. the Connecticut Common Core of Teaching,
  b. the National Board for Professional Teaching Standards,
  c. teacher performance standards from numerous districts nationally, and
  d. experts from the field including:
    i. Charlotte Danielson (*Enhancing Professional Practice: A Framework for Teaching*)
    ii. Kim Marshall (*Teacher Evaluation Rubrics*)
    iii. Jon Saphier (*The Skillful Teacher: Building Your Teaching Skills*)
- Defines high quality professional practice through clear and rigorous standards via concise teacher performance rubrics which define the knowledge, skills, dispositions, and responsibilities of teachers;
- Incorporates multiple indicators and data sources as evidence for teacher performance and student growth;
- Provides clear, actionable feedback to teachers to continuously improve practice;
- Departs from traditional single observations of classroom instruction to focused mini-observations of selected units of instruction;
- Replaces traditional goal setting with a professional focus (PF) authored by individual teachers to specifically address a professional challenge they have identified;
- Follows Weston Public Schools curriculum documents, the Connecticut State Curriculum Framework, Common Core State Standards and high priority 21st Century learning outcomes;
- Utilizes multiple sources of data from assessments of student performance; and
- Includes reflections by the teacher and follow-up by both the teacher and supervisor in the pursuit of continuous improvement.
Characteristics of our system that support professional growth:

- Relies on active teacher participation, collaboration, initiative, and the pursuit of continuous improvement;
- Expects reflective teaching practice;
- Expects teachers to use multiple sources of data to guide instruction;
- Is supported by a comprehensive professional development system;
- Connects supervision/evaluation activities with contract renewal decisions
- Provides specific and timely feedback on current teacher performance to promote reflection in the pursuit of continuous improvement;
- Provides support for and differentiates between various stages of teacher development; and
- Supports and encourages teachers to identify a professional challenge and actions that lead to the improvement of the quality of instructional practice and student learning over time.

Characteristics of our system that will provide appropriate documentation for decisions on contract renewal:

- Establishes clear and consistent performance standards;
- Defines all steps in the process;
- Provides opportunity for teacher input and response;
- Provides structured opportunities to improve; and
- Reflects current negotiated agreements.
AN OVERVIEW OF THE DIFFERENTIATED TEACHER SUPERVISION AND EVALUATION SYSTEM

To best recognize and meet differing needs of professionals, three separate groups with differing supervision and evaluation processes were established beginning with the 2011-12 school year. For 2013-14, we will continue with this approach as part of the two-year phase in of the State of Connecticut’s new guidelines for teacher evaluation.

**Group A: Adapting to New Contexts**

This group includes first, second, third and fourth year teachers, non-tenured teachers, professionals new to WPS, and may include WPS teachers who transition to new assignments. The emphasis will be on supervision and support and will include a unit-based series of mini-observations in each of the four years.

In Group A, teachers will:
- identify a Student Learning Objective(s) (SLO) in alignment with the standards in the Teacher Performance Rubrics;
- identify a unit of instruction or multiple units (depending on unit length) for mini-observations and receive timely written feedback from their administrator;
- solicit student and parent feedback from survey instruments;
- be evaluated on each of the four domains in the Teacher Performance Rubrics; and
- self-assess and reflect on their professional growth in meeting the four domains and accompanying standards in the Teacher Performance Rubrics.

At the discretion of the administrator, an experienced teacher non-tenured in the WPS or a WPS teacher in a new assignment may be moved to Group B.

**Group B: Professional Status**

This group includes all professional status teachers. Emphasis is on a combination of self-directed professional growth, supervision, and support including a unit-based series of mini-observations within a three year cycle.

In Year 1, Group B teachers will:
- identify a Student Learning Objective(s) (SLO) in alignment with the standards in the Teacher Performance Rubrics;
- identify a unit of instruction or multiple units (depending on unit length) for mini-observations and receive timely written feedback from their administrator;
- solicit student and parent feedback from survey instruments;
- be evaluated on each of the four domains in the Teacher Performance Rubrics; and
- self-assess and reflect on their professional growth in meeting the four domains and accompanying standards in the Teacher Performance Rubrics.
In Years 2 and 3, Group B teachers will:
- develop a Professional Focus (PF) in alignment with one or more of the standards in the Teacher Performance Rubrics;
- engage in one or more additional professional growth options to support their PF; and
- self-assess and reflect on their professional growth in meeting the four domains and accompanying standards in the Teacher Performance Rubrics.

**NOTE:** If at any time during the school year a teacher in Group B has been identified as not meeting standard(s), additional support may be provided by their administrator by being reassigned to year one of the three year cycle.

**Group C: Focused Assistance**

This group includes teachers who have not met the Weston Public Schools standards as delineated in the Teacher Performance Rubrics as documented through the evaluation process. While the granting of a continuing contract indicates that a teacher has performed satisfactorily and demonstrated competence in meeting most of the standards, it is recognized that circumstances may arise which result in a continuing contract teacher performing unsatisfactorily in one or more standards. At any time, a principal or supervisor may assign a teacher to Group C as a result of documented need for improvement. After conferring with their supervisor, teachers will follow an initial assistance plan. Movement from Group C to Group A or B will be determined by the documented performance of the teacher in meeting the goals of the initial assistance plan.

Failure to meet the goals of this initial assistance plan will result in the teacher being placed on an intensive assistance plan which will include a timeline and observation schedule. At the conclusion of the plan a recommendation regarding retention will be made. This process will be conducted in accordance with all applicable Connecticut State Laws and the Weston Board of Education policies.
AN OVERVIEW AND TIMELINE OF ACTIVITIES

For the 2013-14 school year “Bridge Year”, Groups A and B1 will consist of at least one third of all certified educators in the Weston Public Schools. Teachers who were scheduled to be in Groups A and B1 for the 2013-14 school year should expect to be “on cycle”. Additional teachers may be placed in Group B1, excluding any teachers who were in Group B1 in 2012-13. This approach involves the implementation of the whole model and represents a minimum of at least one third of the district’s certified staff.

COMPONENTS OF GROUPS A, B, AND C

The focus of an evaluation and growth plan is to improve student learning while providing meaningful opportunities for continued professional growth. Recognizing that there are various stages in a teacher’s career, this plan incorporates options that correspond to different professional development needs with the aim of encouraging collaboration among peers; facilitating the expansion of instructional repertoires; and helping to build a learning community.

In the spirit of recognizing that teacher evaluation and professional growth must be aligned to school and district goals and the Teacher Performance Rubrics, and yet can be reflected in multiple ways, the following approaches to professional growth are available to teachers under the WPS Supervision/Evaluation Plan:

GROUP A COMPONENTS
“Adapting to New Contexts”

Group A: Mini-Observation Process (Years 1, 2, 3, and 4)

- Teacher identifies a unit of instruction or multiple units (depending on unit length) for mini-observations;
- Teacher and administrator meet prior to the beginning of the unit to review the unit plan using the Unit Plan Template provided in the online appendix located on the district network (“Unit Plan Template”), and discuss areas of focus for observation related to specific domains and standards as described in the Teacher Performance Rubrics;
- The administrator conducts a series of unannounced mini-observations over the course of the unit for a minimum of 15 minutes each observation (visit length is at the discretion of the administrator) observing identified areas of focus and any other area(s) that prompts administrator feedback (prearranged observations may be requested by the teacher);
- Teacher receives timely written feedback from their administrator following each mini-observation;
- Written feedback is provided prior to the subsequent mini-observation;
- Teacher reflects on the feedback received from the administrator throughout the unit and subsequent changes in instructional practice prior to final summative meeting of the mini-observation process; and
- A summative report of the mini-observation process is written by the administrator following completion of the unit, the mini-observations, and the gathering of verbal teacher reflections at the final summative meeting.
Group A: Student Learning Objective(s):
The SLO consists of:
- A goal and/or objective for student growth using multiple indicators of academic growth and development;
- There is clear alignment between the SLO and the Indicators for Academic Growth (IAGD);
- A teacher identifies at least one SLO, but no more than four;
- The process allows for IAGDs to be mutually agreed upon by teacher and evaluator;
- Multiple indicators of academic growth drawn from a variety of data sources.

Group A: Student and Parent Surveys
- Surveys will be administered to students in the teacher’s class(es) and to those parents who have children in their classes.
- Parent and student responses will be anonymous.
- Teacher reflects on feedback received.
- These instruments will be developed over the summer 2013.

Group A: TEAM Program (Years 1 and 2 Only)
Although not part of the formal teacher evaluation plan, as mandated by the State Department of Education, the TEAM Program is an induction program for beginning teachers (Group A) that includes mentorship and professional development. Beginning teachers participating in the program will be assigned a mentor to guide them while they progress through the program. Beginning teachers are required to complete up to five professional growth modules. Mentors and beginning teachers will work together to establish the focus of each module. At the culmination of each module, a written reflection paper will be submitted by the beginning teacher to a district review committee to determine if the beginning teacher has successfully completed the module. Beginning teachers must successfully complete TEAM Program requirements to be eligible for a provisional educator certificate.

Group A, B, & C: Self-Assessment
- Completed annually by all teachers in all Group A, B, & C.
- Submitted to immediate supervisor prior to the annual summative evaluation

Group A Years 1-4:
Teacher:
- Written reflection by teacher of progress in each of the four domains towards meeting the individual standards outlined in the Teacher Performance Rubrics, including a written reflection by teacher with evidence to support conclusions on their SLO.

Administrator:
- Summative appraisal of performance indicating “above standard” (4), “at standard” (3), “below standard” (2), or “unsatisfactory” (1).
- Written appraisal for each domain “above standard” (4), “at standard” (3) “below standard” (2), or “unsatisfactory” (1)
GROUP B COMPONENTS
“Professional Status”

Group B1: Mini-Observation Process (Year 1 of 3 year cycle)

- Teacher identifies a unit of instruction or multiple units (depending on unit length) for mini-observations;
- Teacher and administrator meet prior to the beginning of the unit to review the unit plan using the unit plan template provided in the online appendix located on the district network (“Unit Plan Template”), and discuss areas of focus for observation related to specific domains and standards as described in the Teacher Performance Rubrics;
- The administrator conducts a series of unannounced mini-observations over the course of the unit for a minimum of 15 minutes each observation (visit length is at the discretion of the administrator), observing identified areas of focus and any other area(s) that prompts administrator feedback (prearranged observations may be requested by the teacher);
- Teacher receives timely written feedback from their administrator following each mini-observation;
- Written feedback is provided prior to the subsequent mini-observation;
- Teacher reflects on the feedback received from the administrator throughout the unit and subsequent changes in instructional practice prior to final summative meeting of the mini-observation process;
- A summative report of the mini-observation process is written by the administrator following completion of the unit, the mini-observations, and the gathering of verbal teacher reflections at the final summative meeting.

Group B1: Student Learning Objective(s):

The SLO consists of:
- A goal and/or objective for student growth using multiple indicators of academic growth and development;
- There is clear alignment between the SLO and the Indicators for Academic Growth (IAGD);
- A teacher identifies at least one SLO, but no more than four;
- The process allows for IAGDs to be mutually agreed upon by teacher and evaluator;
- Multiple indicators of academic growth drawn from a variety of data sources.

Group B1: Student and Parent Surveys

- Parent surveys will be administered to students in the teacher’s class(es) and to those parents who have children in their classes.
- Parent and student responses will be anonymous.
- Teacher reflects on feedback received.
- These instruments will be developed over the summer 2013.
Groups B2 & B3: Professional Focus (PF) (Years 2 and 3 of 3 year cycle)

The PF is:
- a propositional statement/causal statements that:
  - encourages innovation,
  - promotes professional growth, and
  - leads to the improvement of the quality of instructional practice and student learning
- based on a personal professional challenge, a need that emerges as an area for individualized professional growth within the framework of the professional knowledge base of the practice of teaching (see Teacher Performance Rubrics);
- a provisional statement drives reflection and learning, not merely confirming what is already known about effective practice
- grounded in the concept of adult learning theory that professional growth comes from deep, thoughtful reflection and processing experiences

The teacher identifies:
- a personal professional challenge in collaboration with their administrator, linked to student learning, and based on the standards in the Teacher Performance Rubrics;
- evidence/data and the student learning needs used to identify this challenge;
- a propositional statement/causal statements that addresses the identified personal professional challenge, encourages professional growth and leads to an improvement in student learning as evidenced by achievement data;
- belief statements that drive the propositional statement/hypothesis grounded in professional literature and research;
- evidence/data and progress monitoring tools that support or refute the propositional statement/causal statements;
- a timeline for the pursuit of this inquiry (determined in collaboration with administrator).

The administrator:
- Provides support in gathering the necessary resources to meet the teacher’s personal professional challenge;
- Prompts teacher reflection by periodically providing feedback throughout the process and asking questions that promote reflection;
- Writes a summative appraisal response at the completion of the process.

Groups B2 & B3: National Board Certification
- In lieu of a Professional Focus (PF), a teacher in Group B2 and B3 may pursue National Board Certification status.
Groups A, B, & C: Self-Assessment

- Completed annually by all teachers in all Group B
- Submitted to immediate supervisor prior to the annual summative evaluation conference

Group B1 Year 1:

Teacher:
- Written reflection by teacher of progress in each of the four domains towards meeting the individual standards outlined in the Teacher Performance Rubrics, including a written reflection by teacher with evidence to support conclusions on their SLO.

Administrator:
- Summative appraisal of performance indicating “above standard” (4), “at standard” (3), “below standard” (2), or “unsatisfactory” (1) in each of the four domains
- Written appraisal for each domain “above standard” (4), “at standard” (3), “below standard” (2), or “unsatisfactory” (1).

Groups B2 & B3 Years 2 and 3:

Teacher:
- Written reflection by teacher of progress in each of the four domains towards meeting the individual standards outlined in the Teacher Performance Rubrics.
- Written reflection by teacher with evidence to support conclusions in their PF.

Administrator:
- Written appraisal and reflective feedback for each of the four domains.
GROUP C COMPONENTS
“Focused Assistance”

Description

This phase is used for any tenured teacher experiencing difficulties in meeting the standards in the Teacher Performance Rubrics. At any time, such a teacher may be placed in Group C by his/her primary evaluator. Focused Assistance has an Initial Level and an Intensive Level. The district indicators would include the following:

1. Weston Teacher Performance Rubric
2. Teacher Responsibilities
3. CT SDE Common Core of Teaching
4. National, state and district curriculum standards
5. Board of Education policies regarding Teaching Responsibilities

The process for placing a certified staff member in this phase includes the following:

- The evaluator must indicate that performance does not meet standard(s) through written communication that clearly describes the gap between the teacher’s current level of performance relative to the specific standard(s) from the Teacher Performance Rubrics.

- There must be sufficient documentation to clearly identify the gap in current performance relative to the specific standard(s) from the Teacher Performance Rubrics. This documentation may not be limited to classroom observation and may include, but not be limited to other sources of data as outlined in the online appendix located on the district network. (“Data Sources”)

Initial Plan of Assistance

Teachers placed in Group C will first receive an Initial Plan of Assistance (“Initial Plan”). The following will be addressed in the Initial Plan:

1. The specific standard(s) not currently being met will be clearly identified.
2. The evaluator’s requirements for improvement in meeting the standard(s) will be outlined.
3. The evaluator will offer support and any additional resources appropriate to assist the teacher in meeting the standard(s).
4. The evaluator will indicate that failure to improve performance to meet the standard(s) within a reasonable and specific period will result in the implementation of an Intensive Assistance Plan.
5. Whenever the evaluator notes a serious performance concern at a time that does not permit the implementation of an Initial Plan of Assistance within normal evaluation guidelines (i.e. the end of a school year), the evaluation period will extend into the next school year. The Superintendent may assign other evaluators to assist in this process.
6. When a teacher successfully completes the Initial Plan, he or she returns to Group B. Any reoccurrence of concerns will result in the teacher being placed in Intensive Assistance.

7. The teacher will be permitted to have bargaining unit representation at all conferences if he/she desires and requests such representation. The evaluator may invite other professional staff, including other administrators and teachers (with prior approval of the teacher), to participate in all conferences.

8. If the teacher does not agree with the content of the assistance plan, they may appeal to the superintendent as stated in the remainder of this section.

**Intensive Assistance Plan**

A teacher who does not improve their current performance to meet the specific standard(s) within a reasonable amount of time, or whose difficulties reoccur (within a reasonable amount of time) or intensify, will be moved to an Intensive Assistance Plan. The responsibility for making and sustaining improvement lies directly with the teacher. This plan:

1. Clearly identifies the specific standard(s) not being met and includes classroom or other observation(s) and/or records, as well as additional sources of data which specifically describe the gap in current performance relative to the specific standard(s) from the Teacher Performance Rubrics.

2. Clearly expresses the evaluator’s requirements for improved performance.

3. Identifies the steps the teacher will take, the evidence the teacher will provide to demonstrate improvement, and appropriate resources to improve performance.

4. Provides a reasonable and specific time period in which improvement will be made.

5. Provides a monitoring system to be used in a supportive fashion, and includes a specific schedule of observations and/or conferences as well as review of other appropriate data sources. The plan will state whether unannounced observations may occur.

6. At the end of the period specified by the evaluator in the Intensive Assistance Plan, the teacher will provide evidence that he or she has taken the steps necessary for improvement. The evaluator will provide the teacher with a formal written assessment that will contain:
   - A record of the observations and/or conferences, as well as any reviews of other appropriate data sources held to monitor performance.
   - A record maintained by the teacher of steps taken and resources used.
   - An assessment of performance in meeting the specific standard(s) identified as not being met as of the date of the assessment.
   - A statement that the current performance meets the specific standard(s) from the Teacher Performance Rubric or a recommendation for further administrative action which, depending upon the seriousness of the gap in current performance relative to the specific standard(s) from the Teacher Performance Rubrics, may include, as appropriate, one of the following:
1. A recommendation for disciplinary action.

2. A recommendation for other administrative action including, but not limited to, recommendation for termination of employment.

A copy of the written assessment will be given to the teacher; the evaluator will keep one and one will be kept in the teacher’s personnel file in the Central Office. The teacher will have the right to review the written assessment and may add written comments. The teacher may have bargaining unit representation at all conferences if he/she desires and requests such representation. The Superintendent, or his/her designee, may assign other evaluators to assist in this process.

**Appeals Regarding the Formation of the Initial and Intensive Assistance Plans**

1. At any time during this process, a teacher will have a right to attach a response to any evaluation document for inclusion in his/her personnel file.

2. A representative of the WTA may represent a teacher.

3. A teacher who does not agree with his/her primary evaluator regarding the composition of the Initial Plan and/or Intensive Assistance Plan may appeal to the Superintendent prior to the implementation of either plan. The Superintendent’s determination on any such appeal will be final. Written evaluations given as part of the evaluation process are not subject to appeal to the Superintendent.

4. With the exception of disciplinary action taken as stated above, and failure to follow the evaluation procedures, evaluative decisions and documentation shall not be subject to the grievance process and arbitration procedure.
SUMMATIVE EVALUATION FOR GROUPS A, B, AND C

The purpose of the summative evaluation is to validate continued successful performance, identify areas for professional growth and development, and to maintain accountability per the standards in the Teacher Performance Rubrics.

Summative Evaluation Process

- All teachers will receive a summative evaluation on an annual basis.
  - Teachers in Groups A and Year 1 of the Group B cycle will receive:
    - a summative evaluation including an appraisal indicating performance “above standard” (4), “at standard” (3), “below standard” (2), or “unsatisfactory” (1) in each of the four domains in the Teacher Performance Rubrics
    - a written appraisal for each domain “above standard” (4) or “below standard” (2), or unsatisfactory (1).
    - an administrative written response to the teacher’s pursuit of their SLO(s).
  - Teachers in Years 2 and 3 of Group B will receive:
    - a summative narrative appraisal of performance in each of the four domains
    - an administrative written response to the teacher’s pursuit of their propositional statement/hypothesis in their Professional Focus
  - Teachers in Group C will receive a summative evaluation per the initial, or intensive assistance plan

- Teachers will submit a self-assessment of performance in each of the four domains in the Teacher Performance Rubrics prior to the final summative evaluation meeting.
- Supervisors will confer with the teacher prior to writing the summative report.
- The supervisor and teacher will both bring data sources to support the evaluation of performance towards the standards in the Teacher Performance Rubrics. These data sources may include, but are not limited to, the list provided in the appendix. (“Data Sources”)
- Staff members will receive a copy of the evaluation report and may choose to supplement the report with comments of their own.
- Any teacher response to the evaluation must be shared with the evaluator prior to submission to the Superintendent. A teacher’s signature on a summative evaluation indicates receipt only and is necessary before submission to the Superintendent’s office.

Determination of Overall Teacher Rating

For the 2013-14 school year “Bridge Year”, which will serve as a pilot year, the final teacher rating for teachers in Group A and B1 will consist of a holistic score on a four-point scale with an appraisal of (4) “above standard”, (3) “at standard”, (2) “below standard”, or (1) “unsatisfactory”. The holistic rating will be based on multiple sources of data and take into account both teacher practice and student growth and development. See section on Sample Sources of Data by Domain.
**Definition of Teacher Effectiveness/Ineffectiveness**

**All Teachers Tenured and Non-Tenured**

- A teacher who receives an overall holistic rating of a (3) “at standard” or a (4) “above standard” is considered effective.

- Consistent with WPS’s high standards, a teacher with an overall holistic rating of a (3) “at standard” who, however, has a rating of (2) “below standard” in a specific domain may receive additional support and assistance.

- A teacher who receives an overall holistic rating of a (2) “below standard” or “(1) unsatisfactory on their summative evaluation is considered ineffective and will be provided with the appropriate interventions. Interventions include providing the teacher with a mentor teacher, placing the teacher on another cycle of mini-observations, or placing the teacher on an assistance plan designed to address the areas of deficiency.

**Resolution of Differences - Groups A, B and C**

Should a teacher disagree with the supervisor’s assessment and feedback, the parties are encouraged to discuss these differences and seek common understanding of the issues. The supervisor may choose to adjust the report, but is not obligated to do so. The teacher has the right to attach a statement to the summative evaluation report identifying the areas of concern and presenting the teacher’s perspective.

**Confidentiality**

All evaluative reports, e.g. observations, progress reports, and summative evaluations, are strictly confidential. One copy with original signatures will be placed in the teacher’s personnel file. A teacher’s signature on any such report is an acknowledgement of receipt only. Having been presented with a report on performance, a teacher is expected to sign one copy, acknowledging receipt.
SAMPLE DATA SOURCES BY DOMAIN

Multiple Sources of Data
Sources of data include, but are not limited to, classroom observations, IAGD’s, standardized and non-standardized testing results, student feedback, student work, parent feedback, pre- and post-observation meetings, and professional meetings. These sources are not limited to any one particular domain. The listing of data sources by domain provided below are not intended to be comprehensive.

Domain One – Planning and Preparing for Learning
- Teacher Artifacts
  - Plan book
    - Assessment data, evidence of alignment to standards
  - PF data
  - Written self-reflections
  - Pre-assessments
  - Interest Inventories
  - Individual binders for “genre” units
  - Logs, notes of meetings with counselors, special educators, school psychologist, team meetings
- Observations by administrator
- Professional conversations
- Student input (e.g. questions asked by administrator during observations)
- Unit Plan – “Understanding by Design”/Backwards Design Template

Domain Two – Creating an Environment for Learning
- Photographs
- Posted classroom expectations
- Room tour conducted by teacher
- Student progress “dashboard” of class progress
- Data walls
- Student work posted
- Availability of appropriate resources and materials
- Disciplinary referrals
- PF data
- Classroom furniture arrangement
- Use of protocols (e.g. National School Reform Network protocols)

Domain Three – Teaching for Learning
- Student feedback
- Lesson plans
- Questions planned by teacher
- Student questions
- Professional conversations
- Student conferencing
- Rubrics that clarify expectations
• Transcripts of discourse in class for professional growth (ratio of teacher/student dialogue)
• Visuals
  o Models, charts
• Feedback to students – written and timely
• Feedback solicited from students
• Samples of student reflection
• Teacher reflection (at end of a unit and end of the year)
• Video clips done by CIL/Peers
• Photographs
• Observations by supervisor
• Different modalities/materials/groupings
• Observations that illustrate the following:
  o Strategies to manage transitions (observations, self-reporting)
  o Strategies for Grouping (observations, self-reporting)
• Lesson designs that promote collaboration/communication
• Student work samples that promote collaboration/communication
• Standardized testing information (CMT, CAPT, AP, NWEA, etc.)
• Student work
  o Performance Based Assessments
  o Formative Assessments
    o Do Nows
    o Exit tickets or slips
    o Summarizers (e.g., Think-Pair-Share, learning partners, journal writes)
    o Checking for Understanding, “dipsticking”
    o Quick sorts
  o Summative Assessments
    o Tests, quizzes, evaluation instruments
    o Grade distributions

**Domain Four – Professionalism & Collaboration**

• Student feedback/survey
• Peer feedback
• Newsletter, parent emails, websites
• Electronic grade book providing timely feedback
• CEUs from workshops
• Chaperoning and/or attending school events
• Advisor/Coach to co-curricular activity
• Professional dress patterns
• Meeting schedules with curricular partners, teams departments
• Committee membership
• Timely, accurate student attendance
• Professional attendance & arrival/departure contractual time
• PPT preparation and participation
• Observed active participation and preparation at meetings
• Data Charts
• Professional organizations/publications received
• PFD conversations and data
• Professional communication
• Observation of team norms
• Self-initiated professional development activities
  o CEU’s
• Presentation and/or sharing of new learning with colleagues
ORIENTATION PROCESS

How is the plan communicated to educators who are new to the district?

Prior to the start of the school year, newly hired teachers participate in a comprehensive orientation program over several days. The orientation includes a half-day workshop on Weston’s evaluation plan with all building administrators present to participate in the discussions. As administrators review the requirements of the plan, there are opportunities for new teachers to review and discuss the expectations in Weston’s Teacher Performance Rubrics.

How is the plan communicated to all educators in the district?

It is the practice of all schools in Weston to annually review the requirements of the evaluation plan at the beginning of the school year during a faculty meeting, and/or at a professional development workshop. Materials for building administrators to use in the orientation process are readily available and have been developed with the involvement of teachers.

The teacher performance rubrics serve as a basis for conversation on what exemplary teaching and learning looks like in the Weston Public Schools. The rubrics are reviewed periodically at faculty meetings. For example, a school that is examining its formative assessment practices would look at Standard 3.5 A, Formative Assessment, when discussing best practices for monitoring student progress.

Teachers may meet with their evaluator to discuss any questions they might have about the evaluation process. It is common practice for teachers to consult with their evaluator as they prepare for their mini-unit observation unit. In addition, teachers are encouraged to meet, or speak, with their evaluator as they create their SLO(s) or PF. The initial PF conference is another opportunity for teachers to meet and review examples of a high-quality SLO(s) or PF.
ANNUAL CONFERENCES

Beginning of the Year Conference

Each teacher schedules an initial conference with their evaluator and comes prepared with their SLO(s) or PF as determined by which group they are in. Teachers in Groups A and B1 will be prepared to discuss their SLO(s), while teachers in Groups B2 and B3 will be prepared to discuss their PF. In both instances, the discussion needs to include a clear rationale for why the teacher has chosen the SLO(s) or PF, and how it will advance student growth and development. In addition, the teacher will have selected various indicators to monitor student progress and serve as evidence of student learning. See sample formative, summative, standardized, and non-standardized indicators on the next page.

Mid-Year Check In

Ongoing conversations between the teacher and evaluator regarding SLO(s) or PF are encouraged to take place over the course of the school year both formally and informally. This allows for the teacher to receive feedback, keep their evaluator updated regarding progress, and for the SLO(s) or PF to be refined as mutually agreed upon by the teacher and evaluator.

By February 15th, all teachers will have formally met with their primary evaluator to review progress on their SLO(s) or PF. The teacher is encouraged to bring available data sources to support initial claims about student performance. At this meeting, the primary evaluator will provide the teacher with feedback and guidance on their SLO(s) or PF.

End-Of-Year Conference

All teachers will have an annual end-of-year conference with their evaluator prior to the last day of school. The evaluator will complete and provide the teacher with the summative evaluation by the last teacher work day.
### Sample Formative and Summative Assessments As Indicators of Academic Growth and Development

ADMINISTRATOR TRAINING

History

Our administrators have received ongoing training on effective evaluation practices since the 2010-11 school year when we began work on updating the previous iteration of the teacher evaluation plan. A consultant was hired from the Research For Better Teaching to train teachers in the knowledge base outlined in the *Skillful Teacher: Building Your Teaching Skills* by Jon Saphier.

Additionally, administrators participated in a series of professional development sessions on best practices in teacher evaluation, including developing strategies for literal note-taking, effective conferencing, and writing evaluations. All evaluators have been taught a common method for providing teachers with feedback (C, E, I, J/Q approach) and have calibrated periodically to ensure consistency across the district.

Norming and calibration

Administrators annually participate in calibration exercises to discuss and hone their evaluation skills. These meetings will be facilitated by the assistant superintendent of curriculum and instruction.

New Administrators

Newly hired administrators receive intensive training to our teacher evaluation plan prior to evaluating teachers. Induction to the plan is provided by the assistant superintendent and may be supplemented with support from outside consultants from Research For Better Teaching.

Mechanism for Assessing Individual Administrator Proficiency

There are currently nine building administrators who evaluate teachers in the WPS. Administrator evaluations of teachers are reviewed annually by the assistant superintendent to ensure that administrators are implementing the teacher evaluation plan with fidelity. An anchor set of exemplars for written observation reports and summative evaluations will be employed in reviewing administrator proficiency with respect to the teacher evaluation system. The quality of written reports will be reviewed as part of the administrator’s annual performance appraisal. Additional training will be provided to administrators who require additional support.
GLOSSARY OF TERMS

Cornerstone Assessment – A rigorous, cross-disciplinary assessment designed to inform instruction regarding high-priority 21st century skills. The assessment is intended to be an engaging and authentic experience for students. The cornerstone is collaboratively scored by a group of teachers.

Developmental Reading Assessment (DRA) - is an assessment that looks at the student’s ability to read benchmarked, grade-level texts on the whole. It measures their pre-reading skills, their oral reading fluency (rate, accuracy, phrasing, expression) AND their comprehension from literal to inferential levels. Prior to the end of second grade/beginning of 3rd grade, comprehension is measured based on verbal response, and after the second grade benchmark, comprehension is measured by written responses. DRAs are designed to provide teachers an abundance of instructional information and are aligned with reading levels that allow teachers to choose books for students where instruction should take place. Because they are benchmarked, teachers can assess progress students are making a few times a year.

Exemplar – An example of student work at a certain level of quality used by teachers and students to identify standards of excellence. An exemplar may represent a low-quality performance or a high-quality performance.

Formative Assessment – An assessment used to guide and inform instructional decisions during a unit or a course of study. A formative assessment refers to all activities that provide information to be used as feedback to monitor and adjust teaching and learning.

Indicator of Academic Growth (IAGD) - A term referring to the sources of data teachers identify in conjunction with their professional focus to monitor student learning. Teachers select multiple IAGD’s that will provide evidence to support their conclusions. IAGD’s may include formative assessments, summative assessments, standardized measures, non-standardized measures, pre & post assessments, cornerstone assessments, surveys, student work, portfolios, etc.

Measure of Academic Progress (MAP) – A norm-referenced standardized measure developed by the Northwest Evaluation Association (NWEA) intended to be used as a formative assessment to guide and inform instructional decisions. MAP is a computer-adaptive assessment in which the difficulty of each question is dependent on how well the student answers the previous question. The results from these assessments help teachers provide instruction most appropriate for the child and monitor his or her academic growth in reading and math over the course of the school year.

Mini-Observation Process – This refers to a formal process for observing an entire unit of instruction to promote frequent and ongoing conversations between evaluators and teachers to accelerate professional growth. This process represents a significant shift in Weston from observing single lessons to seeing instruction unfold from the planning phase to the implementation phase of a unit. Multiple sources of data are employed to provide feedback on performance.
Performance Assessment – An assessment in which students apply their knowledge and skills by constructing responses, creating products, or performing demonstrations, to provide evidence that they have a deep understanding. A performance assessment is considered authentic when the products or performances have real-world application and have an audience other than the teacher. A performance assessment may be embedded in a unit as a task or come at the end of a unit as a summative means of assessing students.

Professional Focus (PF) - Teacher responses to a district-wide survey indicated that the traditional goal setting process did not foster professional growth in Weston. The PF replaces the traditional goal setting process with a theory of action, a propositional/causal statement (IF, THEN) that leads to the improvement of the quality of instructional practice and student achievement. It is based on an area of personal professional growth that emerges within the framework of the Teacher Performance Rubrics.

Reflection – As part of Weston’s evaluation model, teachers contemplate feedback provided by the evaluator during the mini-observation process. In addition, they develop written reflections of their own progress in each of the four domains towards meeting the standards outlined in the Teacher Performance Rubrics. The focus on teacher reflection places greater emphasis on continuous improvement to support a culture of evaluation for teaching and learning.

Rubric – A series of narrative statements describing the levels of quality of a product or performance. The rubric can be a list of narrative statements (holistic) or a matrix of narrative statements (analytic). It is best practice to provide students with a copy of the rubric in advance of the assessment as a means of communicating expectations.

Self-Assessment – When students uses a rubric or exemplar to assess their own work and make plans to improve based on their own evaluation.

Student Learning Objective - The SLO consists of a goal and/or objective for student growth using multiple indicators of academic growth and development.

Summative Assessment – A summative assessment comes at the end of the unit, a course, or exiting year of a school. Examples include a test and performance assessment coming at the end of a unit, a final exam, a cornerstone assessment, or a portfolio. These summative assessments may also be used for formative purposes to guide future instruction. Other examples of summative assessments include the annual state assessment.
TEACHER PERFORMANCE RUBRICS

Domain 1 – Planning and Preparing for Learning

Standard 1.1: The teacher acquires and uses knowledge about individual students as learners in preparing lessons which consider the students’ academic and social/emotional needs and interests.

Standard 1.2: The teacher plans coherent and relevant units, lessons and authentic learning activities that build on students’ prior knowledge, aligned with standards and district curriculum.

Standard 1.3: The teacher plans instruction to promote the acquisition of transferable skills such as, critical thinking, innovative problem solving, effective communication and collaboration, while integrating innovative technological and digital resources strategically when appropriate.

Standard 1.4: The teacher reflects upon the lesson’s effectiveness and level of student engagement, using that reflection in the planning of future instruction.

Standard 1.5: The teacher plans for a balanced assessment system aligned with standards and district curriculum that demonstrates the different purposes and types of assessment, using a variety of strategies to measure ongoing student progress and to inform their planning for.

Domain 2 – Creating an Environment for Learning

Standard 2.1: The teacher creates a positive and inclusive learning environment, where interactions are caring and respectful, students participate actively as the primary speakers and workers, and cognitive engagement is promoted through independent and collaborative learning.

Standard 2.2: The teacher establishes effective routines, procedures, and transitions, which result in a safe and orderly learning environment and maximize instructional time.

Standard 2.3: The teacher establishes and reinforces appropriate behavioral expectations, monitors student behavior, and prevents student misbehavior.

Domain 3 – Teaching for Learning

Standard 3.1: The teacher communicates instructional objectives, sets high expectations, and uses instructive directions, procedures and assessment criteria.

Standard 3.2: The teacher demonstrates content knowledge by conveying content in a comprehensible way and using appropriate instructional strategies, technological tools, and digital resources.

Standard 3.3: The teacher uses a variety of evidence based instructional strategies and tasks, varying the teacher and student roles with a gradual release of responsibility to students, which promotes innovative problem solving skills through conceptual understanding, critical thinking, creative thinking, communication and collaboration.

Standard 3.4: The teacher engages students in purposeful discourse and thought-provoking questions aligned with the lesson objectives to explore and extend content knowledge.

Standard 3.5: The teacher uses formative assessment to vary instruction to meet individual learning needs; provide timely, constructive feedback to students about their progress; and monitor and adjust instruction in response to student performance and engagement in learning tasks.
Domain 4 – Professionalism and Collaboration

**Standard 4.1:** The teacher maintains accurate instructional and non-instructional records to track student progress toward meeting standards (including indicators and benchmarks) and collaborates with colleagues to review and interpret assessment data to monitor and adjust instruction.

**Standard 4.2:** The teacher communicates with the family about academic/behavioral expectations and student progress, and encourages family involvement in the student’s learning.

**Standard 4.3:** The teacher establishes and maintains professional relationships by engaging in discourse about professional issues with colleagues, functioning as a member of a faculty/team, and participating in school events and district initiatives to promote a positive school climate.

**Standard 4.4:** The teacher develops as a professional by continually engaging in new learning, reflection, and self-evaluation which informs his/her knowledge of new content and pedagogy.

**Standard 4.5:** The teacher conducts themselves as professionals in accordance with the CT Code of Professional Responsibility for Educators.
Domain 1: Planning and Preparing for Learning

**Standard 1.1:** The teacher acquires and uses knowledge about individual students as learners in preparing lessons which consider the students’ academic and social/emotional needs and interests.

## Domain 3: Teaching for Learning

**Standard 3.1:** The teacher communicates instructional objectives, sets high expectations, and uses instructive directions, procedures and assessment criteria.

<table>
<thead>
<tr>
<th>Elements</th>
<th>4</th>
<th>3</th>
<th>2</th>
<th>1</th>
</tr>
</thead>
</table>
| **A. Lesson Planning**        | Teacher prepares lessons with measurable objectives that are aligned with standards and the district curriculum which can be explained by the student.  
Teacher designs instruction using appropriate sources matched to the objective, establishes expectations for student performance, provides opportunities for students to make progress toward meeting and exceeding standards, makes connections within and across disciplines, and makes connections to real world applications. | Teacher prepares lessons with measurable objectives that are aligned with standards and the district curriculum.  
Teacher designs instruction using appropriate sources matched to the objective, establishes expectations for student performance, provides opportunities for students to make progress toward meeting and exceeding standards, and makes connections within and across disciplines. | Teacher prepares lessons with clear objectives that are aligned with standards and the district curriculum.  
Teacher plans instruction using appropriate sources matched to the objective, establishes expectations for student performance, provides opportunities for students to make progress toward meeting standards. | Teacher prepares lesson plans with instructional objectives absent or not aligned with standards and the district curriculum.  
Teacher selects instructional activities that are not consistently aligned to the instructional objectives or that set expectations that are not constructed for students to make progress toward meeting the standards. |
| **B. Standards-based Instructional Objectives** | Teacher clearly and accurately communicates standards-based instructional objectives and an instructional rationale for this learning so that students can articulate the purpose for learning. | Teacher clearly and accurately communicates standards-based instructional objectives and an instructional rationale for this learning. | Teacher communicates standards-based instructional objectives. | Teacher communicates little or nothing about the standards-based instructional objectives. |
| **C. Instructional Directions and Procedures** | Teacher effectively communicates directions and procedures that anticipates student misconceptions, fosters student independence, and promotes self-directed learning. | Teacher effectively communicates directions and procedures that anticipates student misconceptions and fosters student independence. | Teacher communicates directions and procedures but does not provide appropriate clarification in order to foster student independence. | Teacher does not effectively communicate directions and procedures or foster student independence. |
| **D. High Expectations**     | Teacher explicitly teaches students learning strategies and procedures to persevere, make their effort more effective, and to set high expectations for themselves. | Teacher communicates high expectations for student performance and utilizes strategies and procedures to encourage perseverance and best effort. | Teacher communicates expectations for student performance and encourages best effort. | Teacher does not communicate expectations for student performance nor encourage best effort. |
| E. Assessment Criteria | Teacher focuses lesson objectives and student work through the use of explicit standards-based assessment criteria (e.g. guidelines, exemplars, check lists, or rubric) and by providing opportunity for students to be part of the criteria-setting process. | Teacher focuses lesson objectives and student work through the use of explicit standards-based assessment criteria (e.g. guidelines, exemplars, check-lists, or rubric). | Teacher focuses lesson objectives and student work by communicating standards-based assessment criteria. | Teacher does not focus lesson objectives and student work by communicating standards-based assessment criteria. |
**Standard 3.2:** The teacher demonstrates content knowledge by conveying content in a comprehensible way and using appropriate instructional strategies, technological tools, and digital resources.

The related services performance rubrics are in the process of being converted to 4-point rubrics. These rubrics will be updated during the summer 2013.

RELATED SERVICES PERFORMANCE RUBRICS
School Counseling, Psychologist, Speech/Language Pathologist

School Counseling Domains and Standards

Domain 1 - Planning and Preparing for Access to Learning
Standard 1.1: Counselors have a foundation and knowledge of theory, practice and standards of counseling.
Standard 1.2: Counselor’s professional practice reflects understanding and respect for student’s diversity and allows them to plan appropriate services for each individual and family which results in direct measurable outcomes.
Standard 1.3: Counselor demonstrates knowledge of a variety of data based decision making strategies in order to enhance student learning and aid in collaboration with colleagues.

Domain 2 - Promoting a Positive School Environment
Standard 2.1: Counselor is proactive in establishing support services on behalf of all students.
Standard 2.2: Counselor develops positive relationships with students, families and school personnel in order to support student growth.
Standard 2.3: Counselor is an effective member of school teams (504, PPT, SST and CORE teams).
Standard 2.4: Counselor engages in effective PBIS practices.

Domain 3 - Counseling to Promote Learning
Standard 3.1: Demonstrates appropriate counseling techniques and interventions for use in education, career domains and personal/social domains.
Standard 3.2: Demonstrates the ability to provide counseling services, both group and individual, appropriate to the interest, needs and developmental level of the students.
Standard 3.3: Counselors will deliver the guidance curriculum appropriate to their grade level based on the Weston School Counseling Curriculum (WSCC).
Standard 3.4: Counselors consult and collaborate at the student, family and system levels and makes appropriate referrals to school and community support personnel.

Domain 4 - Professionalism
Standard 4.1: The counselor establishes and maintains professional relationships by engaging in discourse about professional issues with colleagues, functioning as a member of the support team, and participating in school events and district initiatives to promote a positive school climate.
Standard 4.2: The counselor improves content knowledge and skills by continually engaging in reflection, self-evaluation, peer coaching and professional development and applying what is learned.
Standard 4.3: The counselor is familiar with and adheres to CT School Counseling Association Guidelines and is in compliance with all district and school policies.
Domain 1: Planning and Preparing for Access to Learning

School Psychologist Domains and Standards

Domain 1 - Planning and preparing for access to learning
Standard 1.1: School Psychologist has a foundation and knowledge of theory, practice and standards of School Psychology.
Standard 1.2: School Psychologist’s professional practice reflects understanding and respect for student’s diversity and allows them to plan appropriate services for each individual and family which results in direct measurable outcomes.
Standard 1.3: School Psychologist demonstrates knowledge of a variety of data based decision making strategies and behavioral supports in order to enhance student learning.

Domain 2 - Promoting a positive school environment
Standard 2.1: School Psychologist is proactive in establishing support services on behalf of all students.
Standard 2.2: School Psychologist develops positive relationships with students, families and school personnel in order to support student growth.
Standard 2.3: School Psychologist is an effective member of school teams (PPT, SST and CORE teams).
Standard 2.4: School Psychologist engages in effective PBIS practices.

Domain 3 - Assessment and Counseling to promote learning
Standard 3.1: School Psychologist will follow NASP guidelines for psycho-educational assessments.
Standard 3.2: School Psychologist will be proficient in administering appropriate evidence based psycho-educational assessment batteries.
Standard 3.3: School Psychologist will integrate results from all assessment data and report the results both in writing and orally.
Standard 3.4: School Psychologist will collaborate with the team to determine student eligibility for support services.
Standard 3.5: School Psychologist demonstrates the ability to provide counseling services, both group and individual, appropriate to the interest, needs and developmental level of the students.

Domain 4 - Professionalism
Standard 4.1: The School Psychologist establishes and maintains professional relationships by engaging in discourse about professional issues with colleagues, functioning as a member of the support team, and participating in school events and district initiatives to promote a positive school climate.
Standard 4.2: The School Psychologist improves content knowledge and skills by continually engaging in reflection, self-evaluation, peer coaching and professional development and applying what is learned.
Standard 4.3: The School Psychologist is familiar with and adheres to the National Association of School Psychologists guidelines and in compliance with all district and school policies.

Speech/ Language Pathologist Domains and Standards

Domain 1 - Planning
Standard 1.1: The Speech/Language Pathologist collaborates with the educational team to create a curriculum based intervention plan.
Standard 1.2: The Speech/Language Pathologist chooses service delivery models that meet the needs of individual students.
Standard 1.3: The Speech/Language Pathologist selects and defends intervention models which are evidence based.

Domain 2 - Identification and Evaluation of Communication Disorders
Standard 2.1: The Speech/Language Pathologist follows CT State Guidelines for evaluation of communication disorders.
Standard 2.2: The Speech/Language Pathologist includes assessment strategies that are evidence based.
Standard 2.3: The Speech/Language Pathologist integrates results from all assessment information and reports the results, both orally and in writing.
Standard 2.4: The Speech/Language Pathologist collaborates with the team to determine student eligibility for support services.

Domain 3 - Intervention
Standard 3.1: The Speech/Language Pathologist selects and organizes materials used for intervention.
Standard 3.2: The Speech/Language Pathologist utilizes effective data management to evaluate student progress.
Standard 3.3: The Speech/Language Pathologist maintains an environment conducive to therapeutic intervention.
Standard 3.4: The Speech/Language Pathologist collaborates effectively with in-school personnel and outside providers in regard to student performance.
Standard 3.5: The Speech/Language Pathologist integrates technology into instruction, when appropriate.

Domain 4 - Professionalism
Standard 4.1: The Speech/Language Pathologist establishes and maintains professional relationships by engaging in discourse about professional issues with colleagues, functioning as a member of the support team and participating in school events and district initiative to promote a positive school climate.
Standard 4.2: The Speech/Language Pathologist improves content knowledge and skills by continually engaging in reflection, self-evaluation, peer coaching and professional development and applying what is learned.
Standard 4.3: The Speech/Language Pathologist is familiar with and adheres to ASHA’s Code of Ethics and is in compliance with all district and school policies.

Additional data sources for related services:

1. **Self-Rating Scale**
The related service provider considers his or her strengths, challenges and needs while rating themselves on the domains and standards related to their individual job category.

2. **Reflective Peer Coaching**
The related service provider will meet regularly with their peers to consider individual caseloads, problem solve and engage in dialogue in regards to topics related to one’s profession. Peers will support one another in new learning and reflection and growth in individual disciplines.

3. **Mini observations as appropriate**
   - Counselors in guidance lessons, Hands Up meeting, Advisor/Advisee Group meetings and PPT’s/504’s.
   - School Psychologists in social skills groups, class lessons and PPT’s.
   - Speech Pathologists in social language groups, individual therapy, and PPT’s.
Supervision and Evaluation Plan Forms

Unit Plan Template: Teacher completes this form and submits it to the evaluator prior to the mini-observation pre-conference. Teacher should bring other supporting documentation to this planning conference, such as unit assessments, completed Understanding by Design unit planning template, and lesson plans.

Mini-Observation Feedback: Form used to provide teachers with written feedback during the mini-unit observation process. Administrators employ the Claim, Evidence, Impact on students, Questions/Judgment (C, E, I, J/Q) approach in providing this feedback.

Mini-Observation Summative Report: Form used to provide summative feedback in each of the four domains of the Teacher Performance Rubrics.

Professional Focus: Teacher completes this form prior to meeting with administrator at the beginning of the year.

Professional Focus Summative Reflection: Teacher submits reflection on professional focus prior to the end of the year conference.

Summative Evaluation (Groups A, B1, & C) Teacher: Teacher submits self-assessment rubric and narrative to evaluator prior to the end of the year conference.

Summative Evaluation (Groups A, B1, & C) Administrator: Evaluator completes summative evaluation following end of year conference with the teacher. Evaluator discusses any discrepancy between teacher self-assessment rubric and administrator evaluation.

Summative Evaluation (Group B2 & B3) Teacher: Teacher uses this form to submit self-assessment narrative to evaluator prior to end of the year conference.
UNIT PLAN TEMPLATE

Teacher: _____________________________   Evaluator: _____________________________

Date: ________________________________

What are the significant student outcomes of this unit? Please describe specific the enduring understandings of the unit.

In which domain, standard, or particular area of performance from the Teacher Performance Rubrics do you seek feedback?

What Assessments and Other Evidence will you use to measure student learning? (Include examples of formal or informal data collection that would occur before, during, or at the conclusion of this unit.)
What are the learning activities and instructional strategies you’ll be using?

When will you be teaching this unit (dates, times, etc.)?

**Student Learning Objective (see glossary for definition)**

What is the Student Learning Objective(s) you wish to address in this unit and throughout the year?

What are the indicators of student academic growth and development that will monitor and signify that the SLO is being addressed?

PROFESSIONAL FOCUS
Personal professional challenge:

What student performance data led me to identify this professional challenge? What can I add to my repertoire to more effectively meet this challenge?

Focus statement: If I ... (what I plan to do), then ... (a desirable student outcome)

What are my beliefs about this work and how will my beliefs impact student performance?

What is my plan of action? (i.e., timeline, action steps, etc.)

How will I monitor my progress?

In which Domain and Standard does this area of growth reside?

DOMAIN 1: PLANNING & PREPARATION FOR LEARNING

Standard 1.1 The teacher acquires and uses knowledge about individual students as learners in preparing lessons which consider the students’ academic and social/emotional needs.

Standard 1.2 The teacher plans coherent and relevant units, lessons and authentic learning activities that build on prior knowledge, aligned with district curriculum standards.

Standard 1.3 The teacher plans instruction to promote the acquisition of transferable skills, such as, critical thinking, innovative problem solving, effective communication and collaboration, while integrating innovative technological and digital resources strategically when appropriate.

Standard 1.4 The teacher reflects upon the lesson’s effectiveness and level of student engagement, using that reflection in the planning of future instruction.

Standard 1.5 The teacher understands the different purposes and types of assessment, using a variety of assessment strategies aligned with standards, including district standards, to determine prior knowledge and monitor ongoing student progress.

Determination of Overall Teacher Rating

For the 2013-14 school year “Bridge Year”, which will serve as a pilot year, the final teacher rating for teachers in Group A and B1 will consist of a holistic score on a four-point scale with an appraisal of (4) “above standard”, (3) “at standard”, (2) “below standard”, or (1) “unsatisfactory”. The holistic rating will be based on multiple sources of data (see section on Sample Sources of Data by Domain below) and take into account both teacher practice and student growth and development.

Overall holistic rating to be reported to the Connecticut State Department of Education:

_______Holistic rating on a scale of 1 to 4
Weston Public Schools

Name:          Date:
School:        Administrator:

Prior to completing this Self-Assessment, review rubrics. Refer to the rubrics while writing your self-assessment. Complete the self-assessment form reflecting on your current level of practice in each domain. Areas to consider:

- Strengths
- Remaining Challenges
- Professional Achievements
- Evidence of Impact on student learning
- Possible Standard from Rubric on which to focus next year

Submit this self-assessment prior to May 1. Use this reflection to inform your discussion with your supervisor.
