USE OF PRIVATELY OWNED TECHNOLOGICAL DEVICES BY STUDENTS

Students may possess privately owned technological devices on school property and/or during school sponsored activities, in accordance with the mandates of this policy, any applicable administrative regulations, and any standards that may be developed by the Superintendent of Schools or her/his designee.

Students are advised that the Board's network administrators have the capability to identify users and to monitor all Privately Owned Technological Devices while they are logged on to the network.

Definitions

Board Technology Resources

For the purposes of this policy, "Board Technology Resources" refers to the Board's computers and instructional technologies; communications and data management systems; informational technologies and the Internet; and any other technology resources owned and/or used by the school district and accessible by students.

Privately Owned Technological Devices

For the purposes of the this policy, "Privately Owned Technological Devices" refers to privately owned wireless and/or portable electronic hand-held equipment that can be used for word processing, wireless Internet access, image capture and recording, sound recording, information transmitting and/or receiving, storing, etc. These devices may include, but are not limited to, personal laptops, Smartphones, network access devices, cellular telephones, radios, MP3 players, CD players, tablet computers, walkie-talkies, personal data assistants, and other electronic signaling devices.

Use of Privately Owned Technological Devices

Privately Owned Technological Devices may not be used during instructional time, except as specifically permitted by instructional staff.

Use of any such device for an improper purpose is prohibited. Improper purposes include, but are not limited to:

- Sending any form of harassing, threatening, or intimidating message, at any time, to any person (such communications may also be a crime);

- Gaining or seeking to gain unauthorized access to Board Technology Resources;
- Damaging Board Technology Resources;
- Accessing or attempting to access any material that is obscene, or contains pornography, or is “harmful to minors” as defined in Board Policy Number 5135;
- Cyberbullying as defined in Policy and Regulation 5131.911;
- Using such device to violate any school rule, including the unauthorized recording (photographic, video, or audio) of another individual without the permission of the individual or a school staff member;
- Connecting a Privately Owned Technological Device directly to the district’s network using a cable or other non-wireless connection.
- Unauthorized hosting of files, folders, or gaming servers for use by others on the network.
- Taking any action prohibited by any Federal or State law.

Search of Privately Owned Technological Devices

A student’s Privately Owned Technological Device may be seized and searched if there are reasonable grounds for suspecting that the search will turn up evidence that the student has violated or is violating the law, Board Policy, Administrative Regulations, or the rules of the school. Any such search shall be reasonably related to the objectives of the search and not excessively intrusive in light of the age and sex of the student and the nature of the infraction.

Responsibility for Privately Owned Technological Devices

Students are responsible for the safety and use of their Privately Owned Technological Devices. If a Privately Owned Technological Device is stolen, lost, or damaged, a report should be made to the building principal, who will investigate the loss in a manner consistent with procedures for stolen or damaged personal property. Students and parents should be aware that the Board is not liable for any Privately Owned Technological Device that is stolen, lost, or damaged while at school or during a school-sponsored activity. In addition, the Board is not liable for damage caused to a Privately Owned Technological Device that is infected by a computer virus and/or malware of any kind while it is connected to, or otherwise interacting with, the Board Technology Resources. For these reasons, students are advised not to share or loan their Privately Owned Technological Devices with other students.

Disciplinary Action

Misuse of the Board Technology Resources and/or the use of Privately Owned Technological Devices to access or utilize the Board Technology Resources in an inappropriate manner, and/or the use of such devices in any manner inconsistent with this Policy, will not be tolerated and will result in disciplinary action. For students, a violation of this Policy may result in loss of access privileges, a prohibition on the use and/or possession of Privately Owned Technological Devices on school property or at school-sponsored activities, suspension or expulsion in accordance with the Board's policies and related to student discipline, and/or other disciplinary consequences as appropriate.

Access to Board Technology Resources

It is the policy of the Weston Board of Education to permit students, using their Privately Owned Technological Devices, to access the Board Technology Resources.

The Board Technology Resources shall be used to access educational information and to promote learning activities both at home and at school. Personal use of Board Technology Resources by elementary school and intermediate school students is expressly prohibited. Personal use of the Board Technology Resources by high school and middle school students is permitted. Such personal use of the Board Technology Resources by middle and high school students, however, is subject to all Board policies and regulations, including monitoring of all such use, as well as any rules that the Superintendent may establish. Moreover, any such personal use shall not interfere in any manner with instructional time, and under no circumstances should such personal use occur during class.

Through the publication and dissemination of this policy statement and others related to use of the Board's computer systems, as well as other instructional means, the Board educates students about the Board's expectations for technology users.

The Board considers access to its technology resources to be a privilege and not a right. Students are expected to act at all times appropriately in ways which are fully in accord with applicable policies concerning technology use as well as all local, state, and federal laws when using the Board Technology Resources. Failure to do so will result in the consequences outlined herein and in other applicable policies (including, but not limited to, the Safe School Climate Plan - Regulation 5131.911), the Student Discipline Policy – 5114, and the Student Use of the District's Computer Systems and Internet Safety Policy and Administrative Regulations Number 5135.

Students must abide by the procedures outlined in this Policy and all policies and applicable regulations outlined in the Board's computer use and other applicable policies. Students will be given specific information for log-on and access procedures using school accounts. No user may deviate from these log-on/access procedures. Students must understand that the Board has reserved the right to conduct monitoring of Board

Technology Resources and can do so despite the assignment to individual users of passwords for system security. Any password systems implemented by the Board are designed solely to provide system security from unauthorized users, not to provide privacy to the individual system user. The system's security aspects, message delete function and personal passwords can be bypassed for monitoring purposes. Therefore, students should be aware that they should not have any expectation of personal privacy in the use of Privately Owned Technological Devices to access Board Technology Resources. This provision applies to any and all uses of the Board Technology Resources and the use of any Privately Owned Technological Devices to access same.

Harm to Board Technology Resources

Any act by a student using a Privately Owned Technological Device that harms the Board Technology Resources or otherwise interferes with or compromises the integrity of Board Technology Resources will be considered vandalism and will be subject to discipline and/or appropriate criminal prosecution or civil action.

Closed Forum

This Policy shall not be construed to establish a public forum or a limited open forum.
